

## **SPIRITUAL PAST LIFE REGRESSION (with Angels)**

According to Bhagwat Gita, the Soul, or Atman, is never born, never dies and after coming into existence never ceases to be. It is nitya (always), shasvatah (permanent) and purana (very ancient) (Chapter 2.20).

*Authors Jasmeet & Amit Sabharwall*

### **Hi Friends**

Today we are going to talk about the difference between **Past Life Regression** and **Spiritual Past Life Regression with the Angels**.

**Before** that are you searching answers to the problems related to Constant Struggle in Job or business challenges , pro longed diseases , painful childhood , parents not loving you , parents being partial to you and loving other siblings , diseases since childhood or Child abuse , or a sorrowful courtship , a painful marriage or Tragic Death of losing near and dear ones in early age or at the time when you needed them the most , repeated life patterns , being constantly cheated in a relationship , strong connection to certain people and getting hurt by them **etc**

**You will not only get your Answers in Spiritual Past Life Regression but you will also release your Curses, Contracts, Vows and Miseries**

**Past Life Regression:** -A client visits a hypnotherapist and with the help of his/her hypnotherapist the client is taken into hypnosis and further into Past Lives.

A client may see, visualize, hear or feel the events of Past lives.

During these general sessions the client can go through the Past Lives and see the events, which at times can be traumatic as the events of Past live journey could be very disturbing and again seeing / visualizing

the events can disturb the client leaving into energy imbalance, stress and anxiety.

Quite often clients ask that when they tried going into Past lives they couldn't. The main cause of same is stress, anxiety, imbalance of energies, imbalance of Chakras etc.

Unless the client is not made comfortable, energies grounded, cleared and chakras aligned to peace and harmony the journey could be traumatic or even not possible.

**Spiritual Past Life Regression with the Angels** : - This is quite different and safest way than the conventional Past Life Regression. In Spiritual PLR you are going to a qualified spiritual healer who is a trained clinical hypnotherapist for your journey through your Past Lives.

To complete the process of going into PLR generally 10-12 sessions are recommended, initial sessions are done to ground the energies, balance the chakras and make client stress free and anxiety free so that when the actual PLR starts the client as well as the energy system, chakras are balanced and stress-free SOUL gets prepared for PLR session.

As we all know the theory of KARMA and Karmic actions has good and bad actions or even reactions, let us help you with the Soul journey pre and post death.

Once a person dies the soul have to go to divine, where Karmic accounting is done as the acts and actions during the lifetime.

Soul then is asked to choose the next lifetime, to choose parents, siblings, future spouses, friends as well as enemies.

After the soul moves to the next lifetime and spends 9 months or so in the mother's womb upon arrival for the day of birth the baby comes out crying.

Reason of crying is coming back to the materialistic world and now most often babies Horoscope is made and placement of stars are not just simple, it's the MAP of life's journey ahead of the baby.

Now comes the interesting part some babies are born with silver spoon some grow up in happy homes and some babies have tough journey right from the birth which could be health issues, non-caring parents or dying early or losing parents early so on and so forth.

As the baby with silver spoons grows up all is good, great parents, great health, happy loving family awesome education and best of the things possible.

But for the other baby whose journey started on the wrong foot has already started facing **Law of Karma**, we had clients coming up and taking about losing parents in early life time, biased parents, non-caring parents, non-loving parents, growing with disease, lack of love or education, inimical siblings tough childhood, teenage or adult hood. Basically, unhappiness from Childhood.

Some come and say that childhood was good, but they were unlucky in love didn't find the right partner or landed up with wrong partner.

Divorce or extra-marital affair cases etc.

Some said they are having repeated patterns in life which is not good experience to live with.

Some said they were cheated upon, few experienced struggles in work life, some of them were not able to live happy life and are just about surviving.

Some came up and said that their children are not good to them or have created lots of trouble for them.

The list is never ending.

### **Spiritual Past life Regression:-**

The basic reason of all these incidents is related to Past Lives and once the **Spiritual Past life Regression is started**, they find the answers and can resolve issues during the therapy.

During the journey of **Spiritual Past life Regression** after taking initial few sessions and taking caring of anxiety, stress, grounding and balancing the client's PLR session is started.

The client is taken into Past lives, wherein they can either see, hear, visualize, or feel depending upon their Claire the real journey starts.

Client is taken into the journey of Past lives with Arch Angels and issues related to each life are sorted.

In each life, right from the childhood till death in that Past life , **Cords** are scanned and released from the clients soul and the other parties involved , **Curses** are identified and release, **Vows** are released , **Contracts** are ended the clients soul as well as the other soul with whom the Cords , Curses , Contracts , Vows are attached are released in Gods white light and both the souls are sent to white light respectfully.

When number of souls from the past lives are disconnected, client's soul integration starts and as client comes to the current life after releasing issue of Past Lives and Soul Integration, the current life becomes beautiful and Karmic Debt free.

**Vows** :- A small example of same "according to Hindu marriage ritual, vows are made for 7 lives in front of fire by the groom and bride ".

But if the marriage falls out, divorce is granted by court and both go separate ways.

Now the Vows taken at the time of marriage still exists in the Universe. Clients complained that the second marriage life was also traumatic Hence only way to release the **VOW** is with the help of angles during the session.

This helped them lead the second married life happily.

**Curses** :-Many clients have raised concern of challenges in current life where they feel terrible suffering in personal life or work front , health or miseries .One of the client complained that none of the children could see their father alive after they attained age of 4 and this was happening for last 3 generations. When they visited past life they observed curses which made the generations suffer.

Once these curses were released with the soul who was cursed 3 generations ago, the situation improved and no more deaths happened within the family and children could see their father alive post age of 4.

To conclude its advisable to get your Spiritual Past Life Regression Done with Angels to resolve all the unhealthy issues and patterns in your current life .
